

Introducing **NEW Stainless Steel Brew Pots**

These pots have the same high-quality stainless steel construction as our Italian variable-capacity wine fermentation tanks and all-stainless steel crusher/destemmers.

Our boil kettles are custom-made with two 1/2" NPT ports. The lower port comes with a chrome-plated ball-valve spigot for easy wort transfer. The upper port comes with a plug and can be upgraded with a threaded thermometer probe. A lid is included with all three sizes. Walls are .8mm thick and bottom is 1.0mm thick.

We have brought in a limited quantity of these pots for the upcoming brewing season. Due to the particularly high interest in craft homebrewing the 8-gallon and 14-gallon sizes will be eye-catching items to stock in your store.
