Gravity Flow Bottle Filler w/Pump

(Item #8175 and #8178)

Gravity Filler Machine

Gravity fillers are the preferred filler for start-up and small wineries due to their filling accuracy and affordability. Sanitary filler constructed entirely of 304 stainless steel. Adjustable bottle tray allows for a wide variety of bottle shapes and sizes to be filled. Fill height is adjustable on each filler nozzle. These fillers are equipped with a mechanical floater that controls product level. As an additional feature these fillers are mounted with a motorized pump and by-pass system.

Catalog #	Model #	Nozzle Specs	Pump	Production	Filling Capacity	Overall Dimensions (w x d x h)	Weight
8175	Deluxe 4	4 x 16mm	0.5hp + bypass	480 lt/hour 127 gal/hour	.5 – 2.0 liter	600x500x1500mm 23.6"x19.7"x59"	43kg 95lbs.
